Name of Contractor: _____

Contact Person: _____

Phone: _____

Outlet & installation cost: _____

By my signature, I certify that the information provided with this application is true, and that I have read and understand the program guidelines.

Signature: _____ Date: _____

Terms & Conditions

1. Applications must be received within ninety (90) calendar days of the purchase and installation date.
2. Customer must submit copies of the contractor's itemized invoice and/or itemized purchase receipts, and the model and serial number must be submitted along with a completed rebate application form.
3. Failure to provide required information may result in denial of the rebate.
4. The applicant agrees to obtain all applicable permits from the Beatrice Community Development Department; to use materials approved by our adopted building codes (2015 IRC and/or 2015 IPC); and to have equipment installed per code. All necessary permits and/or inspections are the responsibility of the customer.
5. Rebates will be issued in the form of a credit on your Board of Public Works (BPW) utility bill.
6. Rebates and incentives are awarded on a first-come, first-served basis until program funds have been depleted.
7. BPW reserves the right to inspect the installed rebated material. If the qualifying equipment is not installed, the rebate may be debited to the utility account.
8. BPW reserves the right to amend or discontinue the program without notice.
9. BPW is not responsible for the rebated material's performance or energy savings, and does not provide any warranties or guarantees, expressed or implied.
10. Applicant must be the customer of record for electric service with BPW.
11. Residential dwellings served electricity by BPW are eligible for an EV-Ready Pre-Wiring Rebate of up to \$75.00, not to exceed the outlet and installation cost. Customers may receive up to two pre-wiring (2) rebates per service address.
12. The installation must include a 50-amp branch circuit equipped with a NEMA 6-50 or NEMA 14-50 receptacle to accept a Level 2 electric vehicle charger.
13. Outlet must be connected and operational prior to submitting application.
